Make a Name For Yourself

The young man who can not save money is doomed to go through life unknown and unsuccessful.

The man who does save shows that he is boss of himself, and ready to assume other responsibilities that may come to him.

Saving means more than having just so much money; it means building character, winning the respect of others and being able to grasp opportunity when it comes. It means making a name for yourself.

Start now. We'll tell you how. Ask us about it.

REVERSE VIEW IN HICKERNELL CASE

AMARILLO COURT OF CIVIL AP-PEALS SUSTAINS JUDGMENT IN LOCAL COURT.

The court of civil appeals at Amar- Wednesday. illo, Texas, handed down an opinion this week affirming the case of J. F. his sister, Mrs. Ray Pyle, and family Gregory and wife against J. C. Hickernell et al., which was tried at the Sentember term, 1919, of the district court

The case grew out of an oil and gas lease made to Hickernell by Gregory a girl, June 29th. and wife. Gregory sued to cancel the lease, on the grounds of alleged fail- Vernon Monday after coal and lum- leave next Thursday for Long Beach. ure to pay the quarterly rentals, at ber. the time, place and in the manner provided in the lease contract.

The case was tried by a jury, and resulted in a verdict for Gregory. Hickernell and associates appealed the case; and the Amarillo court affirmed the case as to Hickernell, but reversed and rendered it, as to Hickernell's associates, who had bought a at Quanah Saturday after a few weeks four-fifths undivided interest from Hickernell in the lease. Their claim Mrs. J. B. Bradford, and family. was that they were innocent purchas-

Gregory then filed a motion for a rehearing, and it is that motion which the Amarillo court granted, reversing itself as to its former opinion, as to the associates of Hickernell, and affirming the entire judgment of the trial court, which awarded all of Gregory's land back to him, not only as to Hiskernell. but also as to his associates.

Counsel for Gregory have not seen a copy of the opinion, but in their judgment the court probably held that since the original consideration failed, and the rentals were not paid at the time, place and manner provided in the lease, that the conditions subsequent of the lease contract had not been met, and the right of rescision was available, and that "time" becomes of the essence of the contract, which required strict compliance with its material conditions, and a person could not become an innocent purchaser until he ascertained that the terms had been

Attorneys for Hickernell et al., state that they have not received the text of the decision, but that an appeal will probably be prepared in the case following the arrival of the opinion of the court. They preferred not to comment on the effect of the holding until details of the court's reasoning are known.

Thalia News.

Thalia, July 2 .- (By special correspondence.)-Rev. Ed Tharp of Margaret filled his regular appointment in the Methodist church Saturday night and Sunday morning.

W. A. Walker of Vernon was here on business one day last week

Vernon, Texas, Friday, July 2, 1920.

THE MEASURE OF VERNON

Vernon's measure is being taken this week-the measure of every citizen of the community, for it is these who make up the town. Your chamber of commerce is asking for \$15,000 to conduct its work, and committees are meeting with gratifying success in pledging that amount.

erable money for a community to spend in one year for upbuilding the town. community, and expects to be much aged. more than 8,000 in 1910 Wichita Falls this amount, and Wichita Falls pledged view. Here and there a grave appar nearly three times as much.

Wichita Falls is perhaps the best illustration of the value of community most part Vernon has forgot. effort. From a municipality of a few more than 8,000 in 910 Wichita Falls grew to a city of 40,879 in 1920.

It has been said that the marvelous growth of Wichita Falls during that so startling as to clarify a number of 10 yars was due almost solely to oil. seemingly unrelated questions. For Oil has produced a magic growth, but instance take this statement, which is the progressive citizens of Wichita said to be a fact: Falls pledged their faith in the town's

Wichita Falls was a marked town before there was any oil in that vicinity. that France demands its pound of flesh Its builders had manifested their de- of Germany under the treaty, rather termination to construct there the than being disposed to this concession metropolis of Northwest Texas, and and that? were spending their money in an organized way to realize that aim.

oil), but with the development of farm- than that of France, expect the United ing and stock raising, the establish- States to assume a part of the burment in Vernon of a potato curing den in protecting little nations-even plant, a green house, the city hospital, though they be as far away as Ara modern dairy and numerous other menia? small factories to provide a certain market for what the farmer growsall of this together with tireless effort to make Vernon a better town in which to live by improving the schools, paving the streets, giving residents enough civic pride that they will cut their weeds and clean their alleys; by convincing the city administration that non-residents must either cut their weeds or pay a fine, and that persons within the sewer limits must get rid Phone 44 of their open toilets without more ado -we can build Vernon into a town twice its present size within the next

But the town must be builded. This is Vernon's first organized effort to enlist every citizen in building a town second only to Wichita Falls in Northwest Texas. Are you a builder?

A PUBLIC NUISANCE.

The automobile has been a menace for some time in Vernon. It is now becoming a public nuisance. The first situation arose from the disregard of any speed limit, and apparent inabiltty of officials to cope with the situation. As a result automobiles were

hurdled down the streets, endangerng life and limb.

The second nuisance arises from the habit of driving with the cut-out open. outside from open cut-outs. This

deadly in case of nervous diseases.

There is a law against driving with open cut-outs in most places. If Vernon has none, certainly there is need for such-unless, perchance, automobile drivers can be persuaded to forego that joy for the comfort of their

Another feature of the situation that is more or less of a menace is that children who can hold the steering wheel only with effort are seen driving almost every day and often with ap parent abandon. Most commonwealths The Record has a guaranteed circulation of 3,000, 85 per cent of which is in Wilbarger County.

If a fine is not sufficient to pre vent these violations, the official might resort to the remedy tried by one municipality. The automobile was arrested whenever an offense had been committed, nor was the owner permitted to bail it out. The car was held in municipal garage for 30 days, at the end of which time its owner might secure same by paying for its ney was seeking to annul his eighth keep.

THE CITY OF THE DEAD.

"You people down south don't think much of your dead, do you?" inquired a stranger of a resident of Vernon. The query was the result of the stranger's arrival in the city over the road from the east. He had passed Eastview cemetery.

According to those who have been out that way recently, the place is little short of a wilderness of weeds. Perhaps \$15,000 seems like consid- Keeping a graveyard clean is no particular gratification to the souls of those whose bodies lie there, perhaps, but it is an indication of the public Officers report that contributions to It is, but Vernon is a considerable spiritedness which is to be encour-

PROMISE HIGH CLASS SHOW FOR NEXT WEEK.

The Vernon theare has booked for next week the Ben Wilson company of 16 people which will show here in mu-

sical and vaudeville productions. The company, according to the local management, is the best of the year's bookings here, and has been seen personally by G. B. Duke, manager of the local theatre. The opening bill is entitled "One of Our Girls," and is said to be one of the funniest of

Ben Wilson who leads the company is a mimic actor of considerable note, He has in his troup two Hawaiian artists, Junia, the idol dancer, and Johnny Kaai, steel guitar artist, both of whom enertained large crowds at the San Francisco fair.

BACKUS SUNDAY SCHOOL CLASS HOLDS PICNIC

The Sunday school class of George W. Backus enjoyed a pienic excursion to Damsite lake yesterday afternoon, a number of the class making the trip together. Fishing and a lunch were features of the expedition.

Among those present, in addition to Mr. and Mrs. Backus and their son,

Nolan Backus, were Mr. and Mrs. Y. Belle Nabers, Mary Virginia Backus. H. Babasin, Lillie Castlebury, Robbie Jewell Everett. Blake Lewis and Roy Castlebury, Martha Frankfurt, May Love and Mr. and Mrs. W. A. Mudgett.

Use Record Want Ads, They Bring Results.

Then and Now With The Record

In 1918, when The Record issued its Semi-Weekly of 8 pages, at a charge of \$1.50 a year, it had one linotype, with one machinist-operator, who was paid \$95 a month—a fair average of wages in this section at the time.

Now The Record has two linotypes; two specially trained men give their entire time to collecting the news; twelve to sixteen pages are published each issue-no expense is spared to keep The Record even ahead of its standard which won twice the designation of "Best Paper in Texas" from the State Press Association. Three of these men are paid \$50 a week. This is an increase of from 400 to 600 per cent.

In 1918 the subscription price of The Record was \$1.50. Beginning July 1, it was increased to \$3.00 a year—an increase of 100 per cent in the price of the product in three years while the increase in the cost of labor, as shown above has been from four to six times.

\$3 a year is less now than it was when cotton sold for 10c a pound, wheat for 75c a bushel, day laborers were paid \$2 a day, and a trained mechanic drew \$4.50 a day.

son upon each of the charges, the state boxes Monday as usual. will revoke the license of that person to operate a motor vehicle on the public highways of this state, in case such violations occur in connection with the operation of a motor vehicle.

Must Stop After Collision.

According to the revised laws, when- covering rapidly. ever an automobile, motorcycle or other motor vehicle whatsoever, regardless of the power by which the same may be propelled, or drawn, strikes any person or collides with any vehicle containing a person, the driver of, and all persons in control of such 'automobile, motorcycle, motor vehicle or other vehicle shall stop and shall render to the person struck or to the occupants of the vehicle collided with. all necessary assistance, including the carrying of such person or occupants to a physician for medical treatment. and such driver and person having or assuming authority of such driver shall further give to the occupant of such vehicle or person struck, if requested at the time of such striking or collision or immediately after, the num ber of such automobile, motorcycle or motor vehicle, also the name of the owner thereof and his address, the names of the passengers, not to exceed ive, together with the addresse each one. Any person violating any of the provisions of this section can be punished by imprisonment in the state penitentiary not to exceed five years. or in the county jail not exceeding one year, or by fine not exceeding five thousand dollars, or by both such fine and imprisonment.

A local automobile dealer, riding south on Main street Monday night in a sedan and accompanied by his wife and baby, collided with a truck at the corner where the Baptist church is located, the truck carrying no lights whatsoever. The fender, hood, and engine of the car driven by the automobile dealer were badly damaged by the impact, and the occupants considerably shaken up. The driver of the truck made no effort to stop, and when pursued, drove off at such speed that his license number could not be taken.

Hard to Enforce Light Ordinance.

"Almost everyone violates the ordinance in respect to bright lights." said Mayor Mason. "If we made one arrest, we would have to make a thousand, and there could not be found a jury to convict any one of the offenders because all of the jurors would probably be as much violators of the law as anyone. We are arresting mo torists for using their cut outs, but it is evidently not doing much good."

Marshall Bratton expressed the de

violators of the statutes pertaining to FORMER TEACHERS MARRIED motor vehicles. "We are going after the cut out people right away," he said. DECLINES TO LET **OPEN SHOP SHAPE** HIS OFFICIAL LIFE

Candidate F. G. Swanson Says No Organization Affecting All Should be Smaller Than the Entire Citizenship as Represented at the Ballot Box or in the Court of Public Opinion.

F. G. Swanson, one of four candidates for the office of representative in the legislature, was in the city yes terday in the interests of his campaign. In connection with an interview he submitted a copy of the replies he had made to the questionnaire on the open shop, and in addition to saying he had not joined and did not expect to join the open shop association, he stated that he considered the open shop and union or non-union labor question one in which workers and employers of labor in the classes affected only were primarily concerned, and tary of war, tendered his resignation the open shop philosophy, whether signing of the armistice his duties are or not he should join any association virtually completed. of any kind, including the open shop.

For himself, he stated that regardless of how it might affect his cam- gone to Crowell to make their home. paign, he did not consider himself directly affected materially or financially by the open shop and therefore would elect to use whatever influence he may have in any direction for the solution of any industrial problem as an individual citizen of the country lieve you of the drudgery during the or community, insisting that no organ- hot weather. Swartwood & Co. 49-2e ization affecting all could be smaller than the entire citizenship as represented at the ballot box or in the court of public opinion.

On the question of strikes he em- Co. phatically declared that they were or should be a last resort in any controversy and were inequitable except as all possible reasonable and rational means had been first tried to settle the question, and that in his opinion, the only justification for any strike in other than a very few extreme cases lay in the fact that the rank and file of union workers were usually indif feent to any rational, educational or legislative methods, and were reached only by appeals to emotions or combative spirit, and could therefore be swung in line in a strike procedure where they could not be prevailed upon either to financially or otherwise support any attempt to improve con-FREE EMPLOYMENT ditions complained of and for which strike "cures" were attempted.

As instances where possibly strike against public service might be in or der, he cited the long indifference to the plight of the postal employes by congress, and the general indifference to the necessity for living salaries and wages for school instructors and teach ers. He was against strikes against the government, and referred to the constitution of the national federation of federal employes, which he helped draft a few years ago and in which he acknowledged holding a retired card, which contained the proviso "Provided that in no case shall the federation indulge in or support strikes against the United States government."

bers of different committees which endeavored to settle by compromise the plumbers strike in Wichita Falls, and cited it as an instance where strike methods had been in error and a loss to all concerned, saying that it ought never to have been "pulled" as it was and that all would have been better off had compromise solution been accept ed by all concerned.

INNOCENT NEGROES **PUT UNDER ARREST**

FARMER THOUGHT HIMSELF TO BE ROEBED BUT FINDS OUT OTHERWISE.

Spectators about the square shortly after noon Thursday were treated to the speciacle of several negroes marching into the courthouse in front of an officer of the law who carried a pistol. The prisoners showed no signs of resisting arrest, but protested their in-

The sheriff had in the meantime received a message from a farmer relative to the case, the message being to the effect that the farmer had thought himself robbed of some oats, but found out otherwise after inquiry.

It seems that the farmer had found that the negroes had gone off with some oat's which had been his and he issumed that they had stolen the grain. He found afterward that the negroes had paid his son for the oats, just as they said they had. The prisoners were released.

FREEMAN-LOOMIS COMPANY

CANDIDATES FAIL TO FILE EXPENSE **ACCOUNT JUNE 29**

Provision of Amended Primary Law Overlooked by All County Seekers for Office in Wilbarger-J. W. Bailey Among the State Politicians Who Omit to Record Budget of Outlay.

According to the strict letter of the law, Wilbarger county will have no election for county offices this year, or if it does print a ticket the ticket will be blank for every office on the list. The reason for this situation is that the 28th day of June passed with not a single report of campaign expenses filed, although such report is required by section 8, chapter 88 of the general laws of the 36th legisla-

Prior to the passage of this act the law required a statement of campaign expenses to be filed within 10 days after the primary election, and candidates here were under the impression that this was still the law. The penalty for not filing the pre-primary reports-of which there are two from each candidate—is that the candidate's name is left off the ticket.

The law reads: "Each and every candidate for nomination in a primary election and every campaign manager or assistant campaign manager for any such candidate is hereby required to keep an accurate record of all funds received and disbursed for campaign purposes, which record shall be preserved for a period of 12 months, and shall be open to inspection of all opposing candidates and qualified voters, and every candidate and campaign manager is hereby required to file a sworn statement of all moneys previously received or disbursed by him, including money not paid, not more than 30 nor less than 25 days prior to the date of the primary election, and not more than termine the right of any candidate al- noon of the 30th. not more than 10 days after the date of the primary election.

Must Show All Disbursements.

previously made in accordance with dled by the party making the same, and the names of all persons to whom the purpose of such disbursements.

"Such statements shall also set forth by both trial and appelate courts." that it is as full and explicit as the that the party making it shall before some officer qualified to administer oaths, take and subscribe the following oath, which shall be filed with said statement:

"I do solemnly swear that the foregoing statement filed herewith correctly shows all moneys received by me and disbursed by me or in my behalf or with my knowledge or consent through or by any other person in connection with the candidacy offor nomination for-before the

primary election, and that I have neither directly nor indirectly arranged or assented to, encouraged or connived at the spending of any money other than as shown in said statement, and that I have not violated any of the provisions of the laws of Texas governing primary elections of the expenditure o ffunds in connection with a candidacy for a nomination in such primary election in letter or in spirit,'

"Such statements and oaths shall be filed within the times required by this section by candidates for state and district nominations and their managers with the secretary of state, and by candidates for county nominations and their campaign managers and by the assistant campaign managers of candidates for state and district nominations with the county clerk of the county in which they reside.

False Swearing Penalized.

"Whoever shall wilfully and corruptly make any false oath, affidavit or sworn statements in complying with the requirements of this section shall be deemed guilty of an offense, and upon conviction thereof should be punished by a fine not to exceed \$1,000.00, or by confinement in the county jail for not more than one year. or by both such fine and imprisonment, or by confinement in the penitentiary for not less than one year, nor more than five years."

Section 9 of the same chapter provides that if any candidate shall knowingly "violate any of the provisions of this act or shall knowingly permit or assent to the violation of any provision of this act by any campaign manager or assistant campaign mauager or other person, he shall thereby forfeit his right to have his name placed on the primary ballot, or if nominated in the primary election, to

GLASS LOOMS STRONG AS M'ADOO REFUSES TO RUN.

Carter Glass, United States Senator from Virginia and former secretary of the Treasury, who by the unexpected withdrawal of William G. McAdoo from the race for the Democratic Presidential nomination may win most of the M'Adoo supporters in the Treasury Department. Senator Glass was born in Lynchburg, Va., January 4, 1858. He has lived in Lynchburg all his life except for the periods spent abroad studying European banking laws and the time in Washington D. C., as an office holder. He is the owner of both the morning and evening papers in his home town. Senator Glass was married in 1886 to Miss Aurella Caldwell, also of Lynchburg. They have four children. son Drug Co., and in Odeil by R. J. two boys and two girls. Both sons served with the A. E. F. in France, one as a major and the other as a lieutenant of infantry. In 1902 he was elected to congress and served continuously until he resigned to accept the appointment of Secretary of the Treasury in 1918.

have his name placed on the official in the affidavit June 29, but accordborrowed and liabilities incurred but ballot at the general election, and proceedings by quo warranto to enforce in June 30, and one of the office force the provisions of this section or to de- said it had come in during the after-12 nor less than eight days prior to leged to have violated any of the prothe date of the primary election, and visions of this act to have his name R. Hardly Knew Her At First Sight

Miss Peck's Friends Are Astonished By Her Wonderful Improvement.

"I have gained some eight or ten pounds since I commenced taking Tanlac and feel perfectly splendid in every way." said Miss Annie Peck, living at 1421 Charlotte St., Kansas City, Mo. "I just can't think of enough good things to say about Tanlac," she con-

"My troubles began about a year ago with hervous indigestion and my stomach finally got in such bad condition that everything I ate disagreed with me. After every meal I would be perfectly miserable from gas forming, and this gas would press up against my lungs and heart until I could hard ly get my breath. I also suffered from severe headaches and became so nervous I rarely ever got a good nights sleep. Finally I became so weak and run down that I had to give up trying to do any work at all.

"My brother had gotten fine results from taking Tanlac so I began taking it, too, and right from the first I could just feel my strength coming back. I continued to improve and now am as well and hearty as any one could wish to be and never have a sign of stomach trouble or nervousness any more. I am looking so much better that my friends who haven't seen me since I began taking Tanlac hardly know me at first sight, and I am feeling so perfectly fine I just want to tell everybody about

Breaking Down The Barrier!

NTIL now, the car of superlative smoothness in performance, elegance, style, and richness in finish, has been the exclusive privilege of the

With the coming of the new Oldsmobile, Model 45, the man of average means has access to the same pride of ownership, the same consciousness of utmost enjoyment, that formerly was attainable only by the possessors of great

In the Model 45, he is enabled to boast a car that in point of smoothness, ability in performance, style, and refinement of finish is the peer of the world's most luxtirious motor cars. And its cost is such that it is well within his reach.

Exquisite harmony of outline and overall proportions distinguish this car, - the result of nearly twenty years of experience in combining beauty with comfort, sturdiness with grace.

The comfort of the car is a revelation, due to the new style upholstery of finest quality, bright finish, black leather, laid in box pleats, with no buttons to gather and hold dust and dirt.

The 120-inch wheel base, through clever body design, provides the utmost in comfortable leg room. Long, wide springs and perfect balance of chassis insure easy riding under any kind of going.

The fifty horse power motor, with the light weight of the car - 3,000 pounds, ready for the road-provides a reserve of power that makes gear shifting rarely necessary. The smoothness of the eight cylinders is a motoring delight.

Economy of operation is insured by light weight and motor refinement. The gasoline average is from fifteen to eighteen miles a gallon, and the tire mileage is unusually high. Oil consumption is nominal.

Throughout, the car leaves nothing to be desired. Walnut woodwork and nickel finished instruments are but details of its superior worth.

The car is built in four body styles at prices astonishingly low, -\$1367 for the seven-passenger, and \$1295 for the fivepassenger, club roadster and convertible roadster models, f. o. b. Lansing.

The seven-passenger is now on display at our showroom. Call or write today for a demonstration.

CLEAN UP THE INCUBATOR

clean and disinfect the incubators, utterance made by the democratic naempty the lamps, and carefully store tional chairman to which any real redthe parts in the machine. Lamps con- blooded American can dissent. Our taining oil which are left in their proper place on the incubator for some time after the hatching season is over will cause trouble when it is started again, as the oil tends to work up into the hood.

The incubator should be disinfected once a year, or oftener if any disease is present in the hens or chickens, say poultry specialists of the United States department of agriculture. Some operators prefer to disinfect their incubators before or after each hatch. A 5 per cent solution of a reliable coaltar disinfectant or carbolic acid may be used to wash out the machine and to disinfect the egg trays and nursery drawer. If the burlap on the bottom of the incubator is very dirty it may be cheaper to renew than to clean it.

For an incubator of about 3 cubic feet capacity one may pour one-half ounce of formalin, which contains 40 per cent formaldehyde, on one-half ounce of permanganate of potash in a pan in the incubator, which produces a very penetrating gas and thoroughly disinfects the machine. The door of the incubator should be closed just as soon as the liquid is poured into the pan and left closed for 12 hours or longer. Incubators should be well aired before they are used after disinfecting, especially when formaldehyde or any disinfectant which produces a gas has been used.

GOOD STOCK ESSENTIAL IN BEGINNING SQUAB RAISING

Begin with healthy, vigorous, properly mated breeders. Good quality foundation stock is very essential to

Select a variety of good quality hard grains, including peas or peanuts. Use small whole corn rather than cracked corn.

Provide for the pigeons a pen which is dry, well ventilated, and can be kept free from rats and mice. Two nests should be allowed for each pair of breeders.

Keep clean, fresh, protected drinking water before the pigeons and provide a separate unprotected pan of water for bathing.

Market the squabs just as soon as they are feathered under the wings and about the time they are able to go out of their nests.

There's a Touch of Tomorrow In All Cole Does Today

es Across the On One Set of Tires

Cole Aero-EIGHTS Average More Than 15,000 Miles on O Tire Equipment Besides Increasing Gasoline Mileage 50% for Cars of Their Capacity and Power

Tires never have to be taken into consideration by the owner of a Cole Aero-EIGHT. The original equipment

outlasts every expectation. That is one reason for the extremely slow depreciation of the Aero-EIGHT. Its remarkable economy in the use of tires and fuel and the sturdy dependability and continuous improvement of the mechanism with use cause it to gain in service and utility as time goes on. It retains its original value indefinitely.

Miles Per Gallon of Gasoline Under Ordinary Conditions of Travel Official record of Aero BIGHT in Los Angeles to Yosemite Economy Run finished with perfect score. Distance 374.6 mi. Gasoline mileage 17.8 m.p.g. Through snow drifts, mud and generally bad roads from Feb. 10 to Feb. 22, on tour from Butte, Mont., to Spokane, Wash., in Aero EIGHT owned and driven by Carl Phillips, Spokane, Wash. Distance 435 miles. Gasoline mileage 15.5 m. p. g.

The Cole Aero-EIGHT was the first car to negotiate uniformly under all conditions of travel upwards of 15,000

miles on tires-5 times the distance across continent on its original casings. Besides, it affords fully 50% more mileage per gallon of gasoline than is ever expected of a car of its capacity and power. Owners of Cole Aero-EIGHTS understand the significance of aerotype construction as it is revealed to them in the performance of their cars.

We will take pleasure in explaining the advanced features of construction embodied in the Cole Aero-EIGHT and to point out its many exclusive improvements

MISUNDERSTANDING SHOULD BE BANNED

REV. GAINES B. HALL HOLDS NO ILL WILL TOWARD MOUNT ZIONISTS.

Elsewhere in this paper is to be found a statement by the Mount Zion Baptist church relative to an alleged charge that the church had asked the "Rev. Gaines B. Hall, Presbyterian minister to not seek to fill his appointment any more at Hinds schoolhouse."

Rev. Gaines B. Hall, when seen about the matter, replied, "So far as I know the charge, if anybody has made such a charge that I have been denied the privilege of preaching out there by the Mount Zion Baptist church is false.

"The fact of the business is that I was sent word by a very good friend of mine, who is also a member of the Mount Zion Baptist church, not to ask to preach out there as I would probably be refused, as the Baptists had bought the schoolhouse for a church and would not want anybody else to preach out there.

"I don't mind saying who these parties were, but I certainly don't want to compromise these men in any way, for they are both good friends of mine.

Mr. Hall reiterated the statement that he had not been refused permis- war. sion to speak at the Hinds schoolhouse because, he said, he had not asked per-

Astonishing Economy And Efficiency In All Kinds of Cooking!

The performance of the "Red Star" will astonish you. You will be surprised at the intense heat generated and the low fuel consumption of the "Red Star."

The "Red Star" is different from ordinary oil stoves It is really a gas stove because it produces its own gas from the cheapest grades of kerosene, gasoline or distillate. This is possible because the

Wonderful Double Ring Flame Burner

vaporizes all the heat units of the fuel and generates its own gas.

The "Red Star" is the first and only stove to use cheap oils without wicks or asbestos rings.

Record Want Ads Bring Results-Try Them.

Read this challenge-

by the Edison Laboratories, and come in to hear the phonograph which stands behind it.

"We are informed that the representatives of one or more talking-machine manufacturers have stated, on several occasions, that they are able to distinguish between a singer's voice, or instrumentalist's performance, and the New Edison's RE-CREATION of such voice or performance."

"We hereby invite responsible representatives of any reputable talking-machine manufacturer to permit themselves to be blindfolded, and to listen to such a comparison, in the presence of judges of their own choosing, indicating to the judges when they think they are listening to the artist, and when to the New Edison. There is only one condition attached, and that is-that the representatives of the talking-machine company, and the judges selected by them, shall sign a written statement, setting forth, in full detail, the results of the test.

"The test will be made with an Official Laboratory Medel, taken from stock, such as can be bought in any Edison dealer's store. (signed)

We have it in our store—the Official Laboratory Model specified in the challenge.

Read the "Invitation to Talking-Machine Manufacturers." It's printed here, just as the Edison Laboratories sent it out.

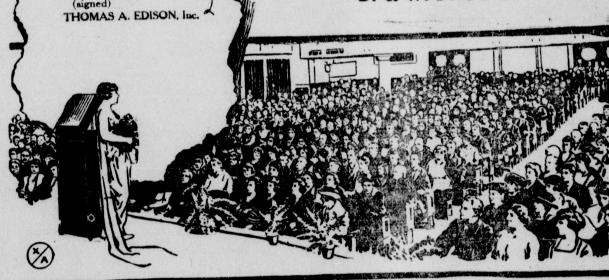

The NEW EDISON

The Official Laboratory Model has proved its Realism in 4000 Comparison Tests, made before 3,500,000 people all over the United States and Canada. For instance, in Los Angeles recently, an audience of 1,500 people was unable to tell the difference between the living voice of Miss Marie Morrisey, world-famous contralto, and its RE-CREATION by the New Edison.

There's a way for you to test the wonderful Realism claimed for the Official Laboratory Model in this sweeping challenge. We give Mr. Edison's Realism Test. Come in and let us give it to you.

The price of the new Edison has advanced less than 15% since August 1, 1914. Mr. Edison has absorbed the bulk of the increased cost of material, skilled labor, and taxes. He is determined to keep the New Edison within the reach of everyone. But conditions may force a price-advance. Buy your New Edison now! Our Budget Plan makes it easy. It is system applied to spending. Ask about it.
